Mr. Tom O’Bryant, Director of Community & Economic Development, provided a summary of the proposed text amendments, stating the purpose was to amend the ordinance in order to allow child caring institutions that fall into the category established by the State of Georgia as “base watchful oversight” in Single Family Residential (R1) and Agriculture (A1) Districts. He reviewed that the definitions applied would allow up to twelve (12) children to be served by the child caring institution, including the host families’ biological children – however more children could be served under a conditional use permit provision. Mr. O’Bryant emphasized that the State of Georgia regulates and oversees the child caring institutions and there are many requirements set forth for the facilities to meet.

Chairman Turner opened the floor for public comment related to the proposed amendments. He asked for any comments in support of the amendments and asked that Ms. Sarah Lulinski begin as she is the citizen who had specifically requested the proposed amendments be considered.

Ms. Sarah Lulinski spoke in support of the proposed amendments to the White County Land Use Ordinance in order to allow for child caring institutions providing base watchful oversight in Single Family Residential (R1) and Agriculture (A1). She stated that she and her husband planned to open a child caring institution in White County which would allow sibling groups in foster care to remain together as opposed to being separated into different foster families. Ms. Lulinski spoke about the important role of this type of facility in this area and the positive impact of keeping sibling groups together in the foster care system.

Ms. Gail Bender spoke in support of the proposed amendments. She shared her personal experience of adopting siblings and of the positive difference this makes in their lives during a very difficult time.

Chairman Turner asked that all those in favor of the proposed amendments signify their support by the raising of their hand. The majority of attendees raised their hand to show they were in attendance in order to show support for the proposed amendments.

Chairman Turner opened the floor for comments in opposition to the proposed amendments to the White County Land Use Ordinance in order to allow for child caring institutions providing base watchful oversight in Single Family Residential (R1) and Agriculture (A1).

Following two (2) additional requests for any comments in opposition to the proposed amendments and with no comments being submitted in opposition the floor was closed.
